Helping employers to support adult care home worker registration

The deadline for registration is October 2022.

We're here to help you and your staff with registration.

Employers are essential to the registration process, and have very important responsibilities, including:

- Becoming signatories – you must ensure you have enough signatories to manage registration, including requests for endorsement. To check your list, go to My Organisation within your SCWonline account. If you need more or need to amend your list of signatories, this can also be done within SCWonline.
- Verifying and endorsing applications in a timely manner.
- Supporting your staff to maintain their registration. You can inform us if any of their details change, including if they have left your organisation, within SCWonline.
- Promoting the Code of Professional Practice and informing us of any concerns by contacting our Fitness to Practice Team, which can be done on our website.

If you would like help with any of the above, including how we can support your staff to register, please contact registration@socialcare.wales.
